

ESSMANN® Special Shape Skylight Domes

Product Description

ESSMANN® Special Shape Skylight Domes

ESSMANN Skylight domes are available in various special shapes.

The round **fixed ESSMANN skylight dome** is made of high-quality opal-coloured acrylic glazing (2-skinned, 3-skinned), which is bolted directly onto a GRP base.

The round **venting ESSMANN skylight dome** is made of high-quality opal-coloured acrylic glazing and fitted with a stable venting frame that is used to mount it onto a GRP base. The venting frame is prepared for the installation of ESSMANN cylinders or ESSMANN servo powered openers.

ESSMANN **pyramid skylight domes** are made of high-quality opal-coloured acrylic glazing that is sloped to about 30°. They are encased in a U-PVC kerb frame, fitted with an integrally moulded drip edge and prepared for daily ventilation. The acrylic skins are moulded from one single pyramid-shaped piece.
